

GreenChip
Consulting

Stark Gas MAM serves clients better with cost-effective data

Greenchip is a small, experienced team reliant on granular energy data to track costs & consumption for their clients' utilities. Handling everything from supplier liaison, procurement, meter management, tenant on-charging, & metering projects it's essential they have a partner who puts them first.

Making the switch Stark Gas MAM easier

Greenchip switch clients over to Stark Gas Meter Asset Management because it's the most cost-effective option for the best quality gas data. Plus, with Stark Connect managing the maintenance it means less downtime, more data and less work raising queries which makes day to day much easier.

“

Stark's approach to Gas MAM is practical & helpful. Response times are great and it's easy to switch.”

Russell Jones, Services Director

Before: Unsafe roof supported by gas pipes

After: New meter with roof made safe

Practical solution for continuous data

This client's gas meter building had an unsafe roof supported by the gas pipes. Stark built new supports to make the space safe. Practical solutions keep the data flowing & queries to a minimum.

“

When it's something we've never heard of, Stark have solutions. They go above & beyond to make it work

As a small consultancy we know we don't have the weight to throw around. Other meter providers have let us know that – but it's easy with Stark. They don't make us jump through hoops..”

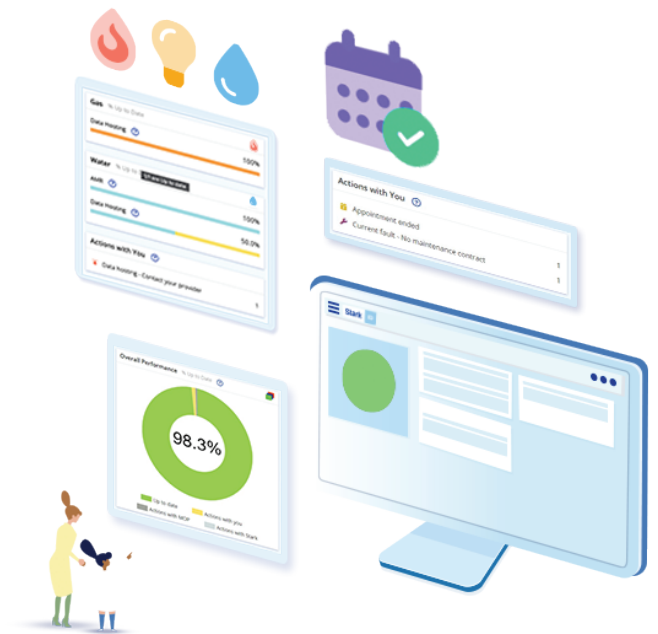

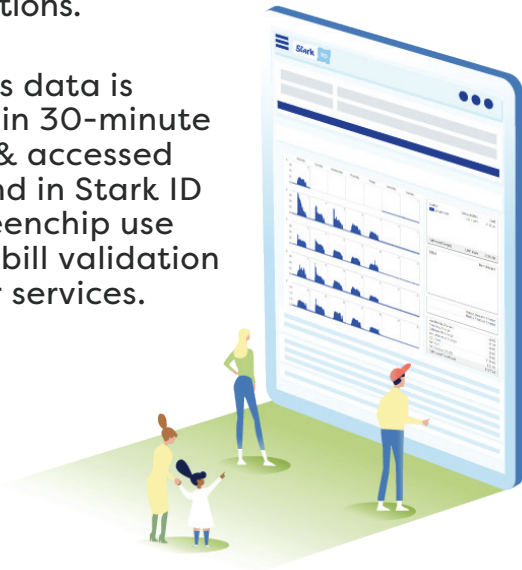

Jane Willcox Services Director

Easy process with accessible data in Stark ID

Gas MAM is already charged in client's supply invoices, so it's makes sense to choose a MAM who provides granular next day data as part of that package.

Stark's gas MAM includes meter installation, maintenance & prevents 3rd party disconnections.

All the gas data is collected in 30-minute intervals & accessed on demand in Stark ID which Greenchip use for utility bill validation and other services.

Stark ID Data Health for unique metering value

Greenchip use Stark ID Data Health to help manage all their utilities, including gas. The reports – provided free of charge – in Stark ID, let them jump ahead of the pack for staying on top of deappointments & maintenance.

“

Using Stark Gas MAM levels up our gas data to the granularity & accessibility we have for our electricity data. It has been a game changer for our services to our clients..”

Jane Willcox Services Director
